

ROLLEI RPN PRINT NEUTRAL

ROLLEI RPN Print Neutral is the ideal paper developer for all standard tasks in the photo laboratory. It can be used universally and is equally suitable for PE/RC and FB papers. RPN produces a neutral image tone with deep blacks of consistent color and provides excellent fog resistance. Even with high dilution and high processing throughput, the good properties of this developer are fully retained. RPN is suitable for tray and machine processing.

Dilution 1 + 9:

900ml water + 100ml RPN = 1l working solution
Temp. 20°C / 68°F | Agitate regularly
